PROFILE

I am a dedicated and analytical Data Scientist with 2+ years of professional experience in leveraging data to drive strategic decision-making and provide actionable insights. I specialize in designing AI solution, building predictive models, performing exploratory data analysis, and translating complex datasets into clear and impactful narratives. I thrive in dynamic, collaborative environments where I can continuously learn and apply new techniques to solve real-world problems.

SKILL

- Microsoft Office
- Python
- C++
- SQL
- OOP
- Tableau
- BigQuery
- Data Wrangling
- Data Cleansing
- Data Visualization
- Feature Engineering
- Machine Learning
- Power BI
- Google Data Studio
- Microstrategy

CERTIFICATION

- Fresh Graduate Academy Data Science
- Data Scientist Associate
- SQL Advanced

LANGUAGE

- Indonesian
- English

WORK EXPERIENCE

PT. Asuransi Allianz Indonesia

- Data Scientist
January 2023 – Present
 - Managing projects related to data and machine learning.
 - Collaborating with cross-functional teams to achieve company goals through data-driven decision-making.
 - Developed solutions to automate business processes using OCR and generative AI technologies.
 - Developed machine learning models for the marketing team to identify potential customers and provide insights on effective communication treatment for customers.

EDUCATION

University of Brawijaya

- Bachelor of Engineering, Mechanical Engineering
2017 – 2021
GPA: 3.61
Relevant coursework: Computer Programming, Engineering Mathematics, Statistics and Probability.
Organization Experience: Staff of Managerial Division in Aerokreasi Mesin Universitas Brawijaya

COURSES

Digital Talent Scholarship

- Fresh Graduate Academy, Data Science
September 2022 – October 2022

DataCamp

- Data Science
January 2022 – August 2022
